

# **PLP Professional Development**

## **Castleton State College Summer Institute**

### **August 11-13, 2014**

#### **“This Time It’s Personal!”**

#### **Developing and Implementing Personalized Learning Plans (PLPs) in Vermont’s Schools**

Castleton College is both thrilled and excited to collaborate with the Vermont Agency of Education on this summer’s *Personalized Learning Plans Institute*.

This 3-day institute will examine strategies and practices that support the development and implementation of Personalized Learning Plans and will showcase exemplary initiatives happening in some of Vermont’s schools that provide students with unique opportunities for learning. In addition, team-planning time will be built into the institute to allow schools to assess their current readiness and practices and plan their next steps.

It will focus on systemic change initiatives related to PLPs so schools should identify a team of teachers, administrators, and guidance support (4-5 members) to attend this institute. The AOE has generously agreed to provide grant funding to support this very important work, which will defray the cost for participants and schools.
